Oliver Tree Donation – organizing sites

Zoning Regulations Update: Alyssa and Geoff

Roots to Branches: April 19th

Schedule and Speakers

Displays

Mini workshops

PUBLICITY

Winter tree walk with Miley and Don

Note from Miley

Lots of cool things to talk about:

- * Birds are singing their spring songs.
- * migrants are returning!
- * deer are suffering
- * owls are feeding young already
- * Spotted Salamanders are breeding in vernal pools
- * aquatic insects (stoneflies) are hatching
- * skunks are ending their breeding season

Don and I will address the trees moving into their active spring state from long winter's rest – was it a rest – or atress?

We'll also discuss bark and twig ID.
