

Town of Fairfield Engineering Department

Sidewalk and Curb Requirements

Revised March 7, 2019. April 1, 2020, February 16, 2023.

The Engineering Department issues permits for sidewalk and curb construction that is within the public right of way.

- If replacing an existing concrete sidewalk or curb, the new sidewalk or curb must be concrete as well unless approved by the Director of Public Works or Engineering Manager for extraordinary cases.
- For new construction, all curb and sidewalks shall conform to current TPZ requirements.

There is a **\$30.00** fee for a sidewalk or curb permit from Engineering. Additionally, if the proposed work will require any excavation within the Public Right of Way a Street Opening Permit may be required. A Street Opening Permit can be obtained through the Sewer Department of the Town of Fairfield WPCA. Please contact the Sewer Department at 203-256-3003 for information and regulations regarding a Street Opening Permit.

Sidewalk and Curb specification drawings and additional information can be obtained at the Engineering Department Office.
